

DIGITAL MARKETING TRAINING MANUAL

1-WEEK INTENSIVE PROGRAM FOR BEGINNERS & ASPIRING FREELANCERS

PROGRAM OVERVIEW

Goal: Prepare newcomers to the online freelance world by teaching digital marketing foundations, channels, and practical applications.

Duration: 1 Week (5 Days) Target Audience: Beginners / Newcomers who want to become freelancers

Learning Outcomes: - Understand digital marketing and how it works. - Identify and use all major digital marketing channels. - Know freelancing opportunities for each channel. - Develop professional, safe online practices. - Produce real deliverables and mini-projects ready for freelance work.

DAY 1: DIGITAL MARKETING & ONLINE MINDSET

Objective: Introduce students to digital marketing, online freelancing, and develop the correct mindset for success.

Lesson Content: 1. What is Digital Marketing? - Definition and examples. - Offline vs online marketing. - How it drives business growth.

1. Digital Economy Overview
2. Freelancers, creators, agencies, businesses.
3. Online money flow: Client → Freelancer → Delivery → Payment.
4. Online Income Myths vs Reality
5. Common myths: "No skill needed", "Fast money".
6. Reality: Skill-based income earned over time.
7. Freelancing vs Digital Marketing
8. Digital marketing = skill set.
9. Freelancing = selling the skill online.

Exercise: - Identify 2 local businesses and brainstorm 3 online marketing ideas. - Write a short description of a product/service you could market online.

Outcome: Students understand digital marketing, how online money works, and the freelancing mindset.

DAY 2: DIGITAL MARKETING CHANNELS & TYPES

Objective: Teach students the major digital marketing channels, how they work, and freelancer applications.

1. Social Media Marketing (SMM)
2. Platforms: Instagram, Facebook, TikTok, X, LinkedIn.
3. Freelancer Opportunities: Content creation, scheduling, engagement.
4. Tools: Canva, Photoshop, CapCut, Buffer, Hootsuite.
5. Exercise: Create a 7-day content calendar for a local business.
6. Content Marketing
7. Types: Blogs, videos, infographics, podcasts.
8. Freelancer Opportunities: Writing, video scripting, infographic design.
9. Exercise: Write a 200-word blog post on a business topic.
10. Search Engine Optimization (SEO)
11. On-page, off-page, technical SEO.
12. Freelancer Opportunities: Keyword research, website audits, meta optimization.
13. Exercise: Suggest 3 SEO improvements for a sample website.
14. Email Marketing
15. Campaigns, automation, newsletters.
16. Freelancer Opportunities: Copywriting, automation setup, template design.
17. Exercise: Draft a 3-email campaign for a product launch.
18. Paid Advertising (PPC)
19. Platforms: Facebook Ads, Google Ads, TikTok Ads.
20. Freelancer Opportunities: Ad setup, targeting, analytics, copywriting.
21. Exercise: Design a mock ad campaign for a business.
22. Website & Landing Page Marketing
23. Creating websites/landing pages to attract and convert visitors.
24. Freelancer Opportunities: Website setup, optimization, lead capture.
25. Exercise: Sketch a one-page landing page layout for a business.
26. E-Commerce Marketing (Shopify/Online Stores)

- 27. Selling products online.
- 28. Freelancer Opportunities: Store setup, product optimization, ad campaigns.
- 29. Exercise: Write 3 product descriptions for a Shopify store.
- 30. AI & Automation in Marketing
- 31. Using AI tools to automate tasks and generate content.
- 32. Freelancer Opportunities: AI content creation, workflow setup, chatbots.
- 33. Exercise: Generate a 7-day social media caption series using AI.
- 34. Additional Modern Channels
- 35. Video Marketing: YouTube, Shorts, Reels.
- 36. Influencer Marketing.
- 37. Podcast Marketing.
- 38. Messaging Apps Marketing (WhatsApp, Telegram campaigns).

Outcome: Students understand all digital marketing channels, know how to offer freelance services for each, and can produce mini deliverables.

DAY 3: FREELANCING & ONLINE PLATFORMS

Objective: Prepare students for freelancing, platform navigation, and skill selection.

Lesson Content: 1. What is freelancing? Payment models: per project, per hour, per month. 2. Freelancing platforms overview: Fiverr, Upwork, Freelancer. 3. Buyer psychology and platform logic. 4. Client communication, trust-building, problem-solving. 5. Skill selection: pick one skill to start, map to a freelance service.

Exercise: - List 3 skills you want to pursue. - Map each skill to a service you could sell online.

Outcome: Students know how freelancing works, platforms, and which digital marketing skill to focus on first.

DAY 4: PROFESSIONALISM, SAFETY & MINDSET

Objective: Teach students online safety, ethical practices, professionalism, and growth mindset.

Lesson Content: 1. Online safety: avoiding scams, verifying clients. 2. Professional behavior: communication, deadlines, consistency. 3. Reputation management: reviews, trust, reliability. 4. Growth mindset: persistence, handling rejection, continuous learning. 5. Freelance roadmap: foundation → Fiverr setup → skill mastery → portfolio → clients.

Exercise: - Roleplay client communication. - Create a 90-day freelance growth plan.

Outcome: Students feel safe, confident, and ready to start freelancing online.

DAY 5: HANDS-ON PRACTICALS & MINI PROJECTS

Objective: Apply learned skills in real-world exercises, producing freelance-ready outputs.

Activities: 1. Social Media Post Creation – 3 sample posts. 2. Content Creation – 1 blog/article + infographic. 3. Landing Page Mockup – sketch for a business. 4. Email Campaign Draft – 3-sequence email. 5. Paid Ad Draft – Facebook/Instagram mock ad. 6. AI Automation – generate social media captions or content using AI.

Outcome: Students produce practical deliverables, ready for freelancing tasks.

FINAL OUTCOMES OF THE TRAINING - Understand the digital marketing ecosystem. - Know all major digital marketing channels and tools. - Can offer freelance services in each channel. - Navigate freelancing platforms confidently. - Practice professionalism, safety, and growth mindset. - Ready to move to Prompt Engineering, Fiverr setup, and advanced skill acquisition.
