

WORDPRESS WEBSITE DEVELOPMENT TRAINING MANUAL

Title: WordPress Website Development – From Zero to Live Website

Level: Beginner to Intermediate

Outcome: Participants can independently build, design, and launch WordPress websites.

PURPOSE OF THIS MANUAL

This manual is created to train **new learners with little or no technical background** on how to design, manage, and publish websites using **WordPress**.

It focuses on: - Strong foundational understanding - Practical, hands-on learning - Real-world website building - Freelancing and business readiness

By the end of this training, participants will confidently say:

"I can build and launch a professional WordPress website."
